PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Special Notice

Calcutta, the 15th April, 1950

(I)

An Act entitled "The Merged States (Laws) Act, 1949" being Act LIX of 1949 was passed by Parliament extending *inter alia* the Indian Patents and Designs Act, 1911, to former Princely States included in the Schedules to "The States Merger (Governors' Provinces) Order, 1949", "The States Merger (Chief Commissioners' Provinces) Order, 1949" and "The States Merger (United Provinces) Order, 1949". The Act has come into force from 1st January 1950.

(II)

By virtue of the Adaptation of Laws Order, 1950, made by the President and published in the Gazette of India Extraordinary under the Ministry of Law Notification No. C.O. 4 dated the 26th January 1950, the Indian Patents and Designs Act, 1911, has been amended to bring it into accord with the provisions of the Constitution of India.

(III)

An Act entitled "The Patents and Designs (Extension of Time) Act, 1950" was passed by Parliament and received the assent of President on the 18th February 1950. This Act is intended to provide in the case of displaced persons for the extension of the time limited by or under the Indian Patents and Designs Act, 1911, for the doing of acts thereunder. This Act will be in force for two years only.

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

30th March 1950

42917. Canadian Patents and Development Limited. Oxidation agents and processes. (31st March 1949).

42918. Aktiebolaget Svenska Kullagerfabriken. Improvements in driving mechanism for crepe rubber rolling mills.

31st March 1950

42919. Ceskoslovenske textilni zavody narodni podnik, and V. Svaty. A method and device for weaving of fabrics.

42920. The General Electric Company Limited and Electroflo Meters Company Limited. Improvements in or relating to electric motor control systems. (1st April 1949).

42921. The Dorr Company. Improvements in classifiers.

42922. Chas. Pfizer & Co., Inc. Improvements in or relating to antibacterial compositions.

42923. Standard Telephones and Cables Limited. Improvements in or relating to crystal triodes. (1st April 1949).

42924. Flight Refuelling Limited. Improvements in apparatus for refuelling aircraft in flight. (1st April 1949).

42925. Societe De Prospection Electrique—Procedes Schlumberger. Improvements to shaped charge devices.

42926. Societe Antoine Levaux et ses Fils. Improvements relating to concrete piling.

1st April 1950

42927. The Raleigh Cycle Company Limited and L.A. Holliday. Improvements in electric lighting circuits for pedal bicycles. (12th May 1949).

42928. J. Dugler. Improvements in scripping bars.

3rd April 1950

42929. P. K. Dass. Improvements in and relating to strainers, filters and the like for straining or filtering tea-liquor, raw milk, soup, decoction, solution and similar other liquids.

42930. A. S. Norduco. Apparatus and process for crystallizing and separating in concentrated form slightly soluble substances from relatively large quantities of liquid.

42931. Nouvelle Societe Induschimie D'Etudes Et De Construction Pour L'Industrie Chimique Societe Anonyme En Abrege Nouvelle Societe Induschimie S.A. Apparatus for the treatment of gaseous fluids.

42932. Imperial Chemical Industries Limited. New composite materials. (30th May 1949).

42933. Mavor & Coulson, Limited. Improvements in or relating to props.

42934. C.W. Cheney and Son Limited and C.W. Cheney. Improvements in fastenings for containers, cases, bags and the like.

42935. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to magnetic materials.

42936. N.V. Philips' Gloeilampenfabrieken. Improvements in or relating to illuminating devices.

4th April 1950

42937. N.P. Karve. An improved electric circuit cut-out.

42938. S.C. Chakravorty. A process for preserving nira.
42939. R. Stern. Improvements in steam generating plant. (29th April 1949).
42940. Ciba Limited. Process for the manufacture of new esters.
42941. The General Electric Company Limited. Improvements in or relating to pressure cookers. (5th April 1949).
42942. Universal Oil Products Company. Preparation of a hydrocarbon drying oil. 5th April 1950
42943. P.N. Naidu. The marking table for Permanent way points and crossings.
42944. F.T. Cooper. Improved type of microphone for use on Harmoniums and other musical instruments from which the sound of the instruments emerges from a vent.
42945. British Telecommunications Research Limited. Improvements in and relating to electric carrier telegraph systems. (6th April 1949).
42946. Marconi's Wireless Telegraph Company Limited. Improvements in or relating to aerial systems.
42947. Imperial Chemical Industries Limited. Polyester compositions for coating, impregnating, adhesive or like purposes. (30th May 1949).
42948. N. V. Vereenigde Tabaksindustriëen Mignot & De Block. Improvements in and relating to devices for feeding a binder leaf and/or a wrapper leaf for a cigar to a rolling mechanism comprising a set of rollers or a rolling apron by means of at least one leafholder adapted to be connected to a suction-conduit.
42949. N. V. Vereenigde Tabaksindustriëen Mignot & De Block. Improvements in methods and devices for piling up preformed binder and/or wrapper leaves for cigars, cigarillos or bunches thereof.
42950. N.V. Vereenigde Tabaksindustriëen Mignot & De Block. Improvements in and relating to rolling mechanisms comprising sets of rollers for making cigar bunches or cigars.
39953. Ercole Marcelli & C. Societa Per Azioni. Improvements in and relating to electrically driven fans. Accepted on 5th April 1950.
- Blades of the fan are made in one piece with blade bases which slide into slots cut in the rotating case of the induction motor and which are held by a ring screw into the rotating case.*
39954. Ercole Marcelli & C. Societa Per Azioni. Oscillating suspension for electric ventilators. Accepted on 5th April 1950.
- Worm wheels and gears are provided for connecting the rotating case of an induction motor fan with a crank disc to cause oscillation.*
40135. C. & J. Clark Limited. An improved footwear fitting appliance. (14th August 1947). Accepted on 4th April 1950.
- Comprising a seat portion and foot rest, the seat-portion having a compartment within which the foot measuring gauge is anchored.*
40236. Societe Generale Isothermos. Improvements in axle-boxes. Accepted on 8th March 1950.
- Each oil gathering paddle is joined to the deflecting and recovering disc by a bend.*
40361. The General Electric Company Limited. Improvements in or relating to process and apparatus for electric arc seam welding. (7th October 1947). Accepted on 5th April 1950
- Welding electrode having a curved surface for the root of the arc, moving relative to welding head in a direction opposite to the movement of the seam relative to the head at such a speed that the arc is held in a given position relative to the welding head.*
40498. Imperial Chemical Industries Limited. Improvements in or relating to the production of ventless delay initiators for explosive or other charges capable of exothermic reaction. (31st December 1947). Accepted on 5th April 1950.
- Fuse element consisting of flexible envelope surrounding an unbroken continuously extruded core of thermoplastic composition comprising inorganic reducing agent and oxidising agent powders.*
41038. Defensor Aktiengesellschaft. Method and apparatus for nebulizing liquids. Accepted on 5th April 1950.
- Enriching the liquid with chemical agents and supplying it to rotating distributor.*
41063. T.V. Adinarayana. An improved iddli vessel. Accepted on 5th April 1950.
- Iddli-vessel having a central chimney for application of lateral heat.*
41080. M. Borri. Pre-fabricated girders of reinforced concrete. Accepted on 5th April 1950.
- The girder has an X-shaped cross-section is provided at intervals with stiffening baffles in register with which the girder presents a quadrangular cross-section.*
41157. E. Rumfitt. A composition for the manufacture of structures, panels and the like. Accepted on 1st April 1950.
- Composition consists of calcined magnesite, and a filler wherein magnesium chloride and magnesium sulphate are added as a bonding medium.*

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications, referred to below, may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Re. 1 (postage extra if sent out of India). Requisition for the supply of printed specification should be accompanied by the numbers of the specifications as shown in the following list.

If required typed copies of the specifications, together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under section 78-A of the Act.

39928. Paul S. Webb and John R. Koster. Improvements in cooling implements and methods of treating the same and compositions therefor. Accepted on 1st April 1950.

Treating the surface of the implement with a polymeric silicone insoluble in olein.

41915. Imperial Chemical Industries Limited. Improvements in and relating to the removal of mist and dust from gases. (13th September 1948). Accepted on 31st March 1950.

Passing through a plurality of apertures and temporarily reversing the direction of flow by impingement on suitable surfaces.

42049. Technicolor Motion Picture Corporation. Method of counteracting average density fluctuation in motion pictures. Accepted on 31st March 1950.

Printing positive film from the negative with light passing through a master positive made from the said negative.

42187. Indestructible Paint Company Limited. Improvements in electrically insulating coating compositions. (3rd November 1948). Accepted on 4th April 1950.

A mixture of an etherified urca-formaldehyde resin, or an etherified melamine formaldehyde resin, a partial polymeric ester of a polyhydric alcohol and an aliphatic α - ω -di-basic.

42231. D. Napier & Son Limited. Improvements in or relating to air intakes for power units for fast moving vehicles embodying one or more turbines. (23rd November 1948). Accepted on 5th April 1950.

Inlet duct from forwardly facing air inlet orifice makes at abrupt change of direction at intermediate point from which rearward branch passage extends in such direction that particles of matter carried by air stream tend to enter into it due to their momentum; means provided to permit limited air flow through branch duct.

42394. Howard and Bullough Limited and J. Kennelford. Improved means for the suspension of bobbins in the creels of textile spinning and like machines. (3rd February 1949). Accepted on 30th March 1950.

Providing in operative relationship to the catch a lever capable of movement to term the catch from the bobbin retaining position to the inoperative position and vice versa.

42463. Imperial Chemical Industries Limited. New anion exchange resins. (12th January 1949). Accepted on 30th March 1950.

Reacting alkylene polyamine, metaphenylene diamine, acetone and formaldehyde.

42472. Imperial Chemical Industries Limited. Improvements in or relating to a method for the production of spinnerets. (2nd March 1949). Accepted on 30th March 1950.

Forming a box having wires embedding the wires with a liquid converting the liquid to a block and cutting the block.

42476. Bowcrofts (Developments) Limited. Handlebars for a steerable wheel of a vehicle. (28th January 1949). Accepted on 30th March 1950.

Pair of hand grip portion hinged by pivot, which is guided for movement relative to the steering support, which movement is limited by a fixed projection on the support engaging similar curved slots in the said portions.

42489. Aktiebolaget Svenska Kullagerfabriken. Improvements in or relating to sealing devices. Accepted on 4th April 1950.

Comprising two rings, one fitted for axial movement relatively to other and making a seal by sliding contact, an annular flexible plate closing space between rings and plurality of spring connecting the rings.

42620. Dunlop Rubber Company Limited. Improvements in or relating to composite products of rubber and textile material. (2nd February 1949). Accepted on 4th April 1950.

Impregnating with rubber containing a hydroxydior tri-arylmethane or their halogenated derivatives.

Patents Sealed

38362. 39028. 39042. 39568. 39678. 39732. 39772. 39890. 39891. 39965. 40212. 40234. 40313. 40499. 40637. 40638. 40858. 40991. 41009. 41093. 41111. 41138. 41163. 41182. 41230. 41235. 41236. 41260. 41263. 41303. 41323. 41335. 41365. 41370. 41421. 41489. 41490. 41491. 41615. 41639. 41641. 41742. 41780. 41795. 41817. 41825. 41864. 41903.

Registration of Assignments, Licences, etc.

Assignment, Licences or other transaction affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest:—

33337 }
33960 } —Porter's Cement Industries (Rhodesia)
33961 } Limited.
